Redistributable Licensing Models

We offer two Redistributable Licensing Models: Lump-sum & Annual subscription model.

Lump-sum model entails a higher up-front payment with 20% annual usage charges.

Annual subscription model entails a fixed fee per year.

Lump-sum Payment

Annual Subscription Model

Lump-sum Payment

Suitable for medium/large enterprises who are looking for a lower recurring cost.

In this model, you have a higher initial cost and a nominal Annual Usage Charge that gets you usage rights, free upgrades and technical support.

In this model, you pay us a lump sum cost and then a nominal Annual Usage Charge (from the second year) for getting usage rights, upgrades and technical support. You do not have to report the number of copies sold or any client information.

This Redistributable Licensing Model includes:

- ❑ Redistribution rights for the selected FusionCharts products with **ONE** of your product(s)/ application(s) deployed on your customer premises.
- ❑ Developer License for all your developers working on that product
- ❑ Free upgrades to future releases of the selected FusionCharts products, as and when released

Product	Up-front cost	Annual usage charges (applicable from 2nd year)
FusionCharts XT	\$6,000	\$1,200
FusionWidgets XT	\$7,500	\$1,500
PowerCharts v3	\$7,500	\$1,500
FusionMaps v3	\$5,500	\$1,100

(All figures in USD)

Annual Subscription Model

Suitable for companies who are just starting out to keep initial investment low.

In this model, you have a fixed fee per year that allows you to distribute the charts with your application.

In this model, you pay us a fixed fee per product per annum. You do not need to report or pay for individual licenses sold for that product.

This Redistributable Licensing Model includes:

- ❑ Redistribution rights for the selected FusionCharts products with ONE of your product(s)/ application(s) deployed on your customer premises.
- ❑ Developer License for all your developers working on that product
- ❑ Free upgrades to future releases of the selected FusionCharts products, as and when released

Product	Annual subscription fees (per year)

Salient features of FusionCharts Redistributable Licenses

Salient features of our Redistributable Licenses

Hassle free redistribution

Redistributing FusionCharts products as a part of your product(s)/ application(s) involves just redistributing the SWF and JS files. You do not need to install anything on your client's machine or register the product. So, just copy the files and get going!

Flexible licensing model to suit your budget and requirements

We offer various Redistributable Licensing Models to fit your budgets and requirements.

Free upgrades and support

As a partner for our Redistributable License, you get free minor and major version upgrades. You also get priority support from our Support team.

Free Developer and Enterprise Licenses for your development needs

We provide you free Multi-Location Enterprise License that allows access to the selected FusionCharts products to all the developers in your organization currently working on your redistributable product(s)/application(s).

Rights to incorporate parts of FusionCharts documentation

You may incorporate parts of FusionCharts documentation in your own product documentation.

Quick and easy termination policies

If you ever feel the need to stop distributing FusionCharts products with your product(s)/application(s), you can easily terminate the Redistributable license agreement at no additional cost.
